PROFESSIONAL SUMMARY

Detail-oriented UI/UX Designer and Video Editor with hands-on experience designing intuitive app interfaces, responsive websites, and high-performing video content for digital platforms. Proficient in Figma, Adobe Creative Suite, and AI-assisted design workflows that accelerate concept-to-delivery timelines. Award-winning design graduate with a working knowledge of front-end development (HTML, CSS, Bootstrap). Adaptable, self-managed, and experienced in meeting client deadlines independently — well suited to distributed, cross-border teams.

CORE SKILLS

UI/UX Design: Figma, Adobe XD, Wireframing, Prototyping, Typography, Color Theory, Visual Hierarchy, User Research Basics

Graphic Design: Adobe Photoshop, Canva, Image Editing & Retouching, Social Media Creatives, Thumbnail Design

Video Editing & Motion Graphics: Adobe Premiere Pro, Adobe After Effects, Transitions & Effects, Short-Form Content, Storytelling & Pacing

Front-End Development: HTML5, CSS3, Bootstrap, WordPress

AI-Assisted Workflow: Midjourney, ChatGPT, AI-accelerated design and content generation, Responsible AI practices

PROFESSIONAL EXPERIENCE

Freelance UI/UX Designer & Video Editor

Apr 2025 – Present

- Designed and delivered digital assets — including UI mockups, social media creatives, and video content — for international and domestic clients across multiple industries
- Managed the complete creative process independently, from client brief through concept development to final delivery, consistently meeting deadlines
- Applied AI-assisted tools (Midjourney, ChatGPT) to accelerate concept development and increase creative output without compromising quality
- Collaborated remotely with clients across different time zones, adapting communication and workflow to distributed team environments

SELECTED PROJECTS

Real-Time Service Tracking App — UI/UX Redesign

- Redesigned the interface of a real-time service-tracking application, improving navigation clarity and visual hierarchy; built wireframes and high-fidelity Figma prototypes based on user needs

Responsive Portfolio Website — Design & Development

- Designed and developed a fully responsive portfolio website using HTML, CSS, and Bootstrap

AWARDS & CERTIFICATIONS

- Artist of the Month, Arena Animation — 5-time category winner, including 1st place for a design-focused, accessibility-oriented mobile app and website interface
- Certifications: Responsible AI, Google Ads Apps
